

The Board of Directors revised the Association for Vascular Access (AVA) organizational structure and installed a dual-vector leadership model of chief executive officer (CEO) and a chief operating officer (COO)” Thompson, J. (2017).

Abstract:

What a difference a few months can make. The Board of Directors revised the Association for Vascular Access (AVA) organizational structure and installed a dual-vector leadership model of chief executive officer (CEO) and a chief operating officer (COO). Our new CEO, Ramzy Nasrallah, will focus on AVA’s strategic needs, whereas recently promoted COO Tonya Hutchison will ensure the organization functions at a high level operationally. We anticipate that under their shared leadership AVA will be stronger and rapidly rise as your source and voice for vascular access.
