

Cover letters or statements of interest and self-evaluations provide additional opportunities for identifying and sharing candidate attributes. One attribute used in this context is professional certification” Bennett (2017).

Abstract:

Professional attributes and characteristics are used in position descriptions, job postings, performance evaluations, and role definitions. Many of these descriptors are found on professional resumes or curriculum vitae in efforts to describe or portray an individual. Cover letters or statements of interest and self-evaluations provide additional opportunities for identifying and sharing candidate attributes. One attribute used in this context is professional certification.
