

IVUPDATE deliver a podcast discussion on the subject of bundle implementation and compliance from Martin Kiernan”.

Martin Kiernan delivers a great discussion on his very practical approach to the science of infection prevention in vascular access. He moves us beyond a focus on bundle content to the importance of bundle implementation and compliance. I caught up with Martin whilst he was presenting at a IV conference at City Hospitals Sunderland. I am pleased to say that Martin jumped at the opportunity to chat with us for this IVUPDATE podcast.
