

SCA Pharmaceuticals LLC (“SCA Pharmaceuticals”) is voluntarily recalling various lots of injectable products to the hospital level. There is a potential for the products to contain microbial contamination” FDA (2017).

FDA report “SCA Pharmaceuticals LLC (“SCA Pharmaceuticals”) is voluntarily recalling various lots of injectable products to the hospital level. There is a potential for the products to contain microbial contamination... Administration of a drug product, intended to be sterile, that may contain microbial contamination has the potential to result in serious adverse events which may include life-threatening infections. SCA Pharmaceuticals has not received any customer complaints or reports of adverse events related to this issue.”

ReTweet if useful... Recall of injectable products by SCA Pharmaceuticals
